Abhijit Yogi- Vocals | Bennet- Vocals | Ramiz Sulaiman- Guitars | Sahana Bhat- Vocals
Sachin Savio Dane- Drums

NCBS, Bangalore | 20 September, 2017
Wednesday | 7:30PM

NCBS

The National Centre for Biological Sciences (NCBS), located in Bangalore, is part of the Tata Institute of Fundamental Research. The mandate of NCBS is fundamental research in the frontier areas of biology.

Our research interests range from the study of single molecules to ecology and evolution. In addition, we engage in a number of collaborative initiatives, such as inStem and iBio. We also help to develop cutting edge instrumentation and software via C-CAMP.

The IXth Bangalore Microscopy Course is organized at the National Centre for Biological Sciences (NCBS), Bangalore, India. Taught by world leaders in biological microscopy, this course provides didactic and hands on training in state-of-the-art optical microscopy technique.

C-CAMP

Centre for Cellular And Molecular Platforms (C-CAMP) is an initiative of Dept of Biotechnology, Ministry of Science and Technology, Govt. of India, with a mandate to be an enabler of cutting edge Life Science Research and Innovation. C-CAMP is also a member of the Bangalore Life Sciences Cluster (BLiSC).

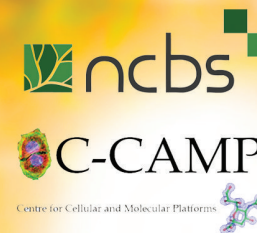

As a part C-CAMP's mandate of promoting entrepreneurship and innovation, C-CAMP has created and fostered an entrepreneur-friendly culture in and around Academic/Research environment through its involvement in Seed Funding Schemes for Startups, Entrepreneur Mentorship program and Bio-Incubation facility.

At C-CAMP, we have established State-Of-The-Art Platform Technologies which are essential requirements for success and leadership in the field of Life Sciences. C-CAMP allows Investigators to use Techniques as tools and not be limited by Technological barriers while pursuing challenging scientific questions.

DSS

DSS is driven by the mantra "Inspired By Technology". DSS Imagetech has made a constant endeavour to provide cutting edge technology solutions to researchers and clinicians in various fields of Life Sciences.

Apart from Microscopy, we are today equally well known for the expertise in Imaging, Genomics, Proteomics and Molecular Diagnostics and the product basket includes instruments, consumables and training services. In addition to the business of biotechnology, DSS actively supports the cause of jazz in India.

RUDRA

NCBS, Bangalore | 20 September, 2017
Wednesday | 7:30PM

RUDRA

Formed in 2013 as a heady mix of various genres, Rudra is one of the peppiest bands to look out for. This experimental-fusion band has a cross-nation appeal with a delightful mix of instruments, inevitable to the quintessential-die-hard music lover.

THOMSON THOMAS

A Violinist who works across a vast palate of genres like Pysbient, Experimental and Fusion. Having worked with stalwarts like Raghu Dixit, Mathiyas Duplessey, Vasu Dixit, Sanjeev Thomas across India, Europe and middle east, Tom has played a pivotal role in creating music that inspires and impacts!!

A teacher driven by deep passion, a musician striving to create innovative music through national & international collaborations & a sterling performer known in the ecosystem. Rudra is Tom's dream to create immensely powerful music through an amalgamation of instruments, artistes and audience-driven playlists.

Aswin- Bass guitarist of the band trained under Bennett Roland.

Anuraj- Lead and rhythm guitarist of the band trained under Pramod Reynolds.. He is a 5th graded artiste from the Trinity School of Music, London.

Manu- keyboard programmer for the band and a music producer.

Abhijit Yogi- one of the main vocalists of the band.

Bennet- A music teacher by profession. He is the main western vocalist of the band.

Ramiz Sulaiman- Guitarist of the band. He has been part of bands like The Harbingers, Pagli, Prayaan.

Sahana Bhat is the Carnatic genius from the band and the key vocalist

Sachin Savio Dane- Drummer for All the fat children, renowned sound engineer. Has worked with John Mc Laughlin, Guthrie govan, Marco minnemmann, Shankar Ehasaan Loy.
