INDIAN TRADITIONAL KNOWLEDGE

HISTORY, INFLUENCES AND NEW DIRECTIONS FOR NATURAL SCIENCE

National Centre for Biological Sciences | TIFR | Bangalore

The conference will explore the many sources of traditional botanical-medical knowledge of India, examine its contributions to broader aspects of science, social history and health care, and explore the potential of this rich heritage as a resource for new developments in diverse fields.

Application Deadline: December 30, 2008 | Graduate students and postdoctoral fellows with interests in medical and pharmaceutical sciences and scientists interested in the history of science are encouraged to apply. For registration details visit: <http://www.ncbs.res.in/events/itk2009>
