# THE SIXTH BANGALORE BENNY SHILO COURSE IN DEVELOPMENTAL BIOLOGY

This course will focus on connecting molecular and cellular pathways to an understanding of the mechanisms that underlie animal development.

The total number of participants in the course will be restricted to about 40. The course will be intense and will require full-time participation. Lectures will be accompanied by informal discussion and Questions. Another aspect will include a study of related research papers in work-groups followed by presentation by the students and discussions with the teachers. Finally, at the end of the course, each student will submit a grant project as written material to the respective scientists who gave the project.

Applications are invited from graduate students early in their PhD programme and from Undergraduate/ Master's students contemplating a research career in developmental biology.

An application with a brief CV stating why you would like to do this course should be sent to [devbio2012@ncbs.res.in](mailto:devbio2012@ncbs.res.in) by 25 October 2012.

Boarding and lodging will be provided for selected students.

## Organisers:

NCBS-and DBS-TIFR

## Venue:

NCBS, TIFR Bangalore

## Teachers:

Amos Arieli  
(Weizmann Institute of Science, Rehovot, Israel)

Satyajit Mayor  
(NCBS-TIFR, Bangalore)

Maithreyi Narasimha  
(Tata Institute of Fundamental research, Mumbai)

Ze'ev Paroush  
(Hebrew University, Jerusalem, Israel)

Erez Raz  
(University of Muenster, Germany)

Eyal Schejter  
(Weizmann Institute of Science, Rehovot, Israel)

Benny Shilo  
(Weizmann Institute of Science, Rehovot, Israel)

K. VijayRaghavan  
(NCBS-TIFR, Bangalore)

Talila Volk  
(Weizmann Institute of Science, Rehovot, Israel)
