

## **Purpose of referring a potential COVID-19 case from campus to an off-site hospital:**

- Management of clinical condition in a hospital setting; i.e where monitoring of a patient at home/on site by campus doctors is no longer sufficient.
- To collect a naso-pharyngeal swab and perform a COVID-19 RT-PCR test

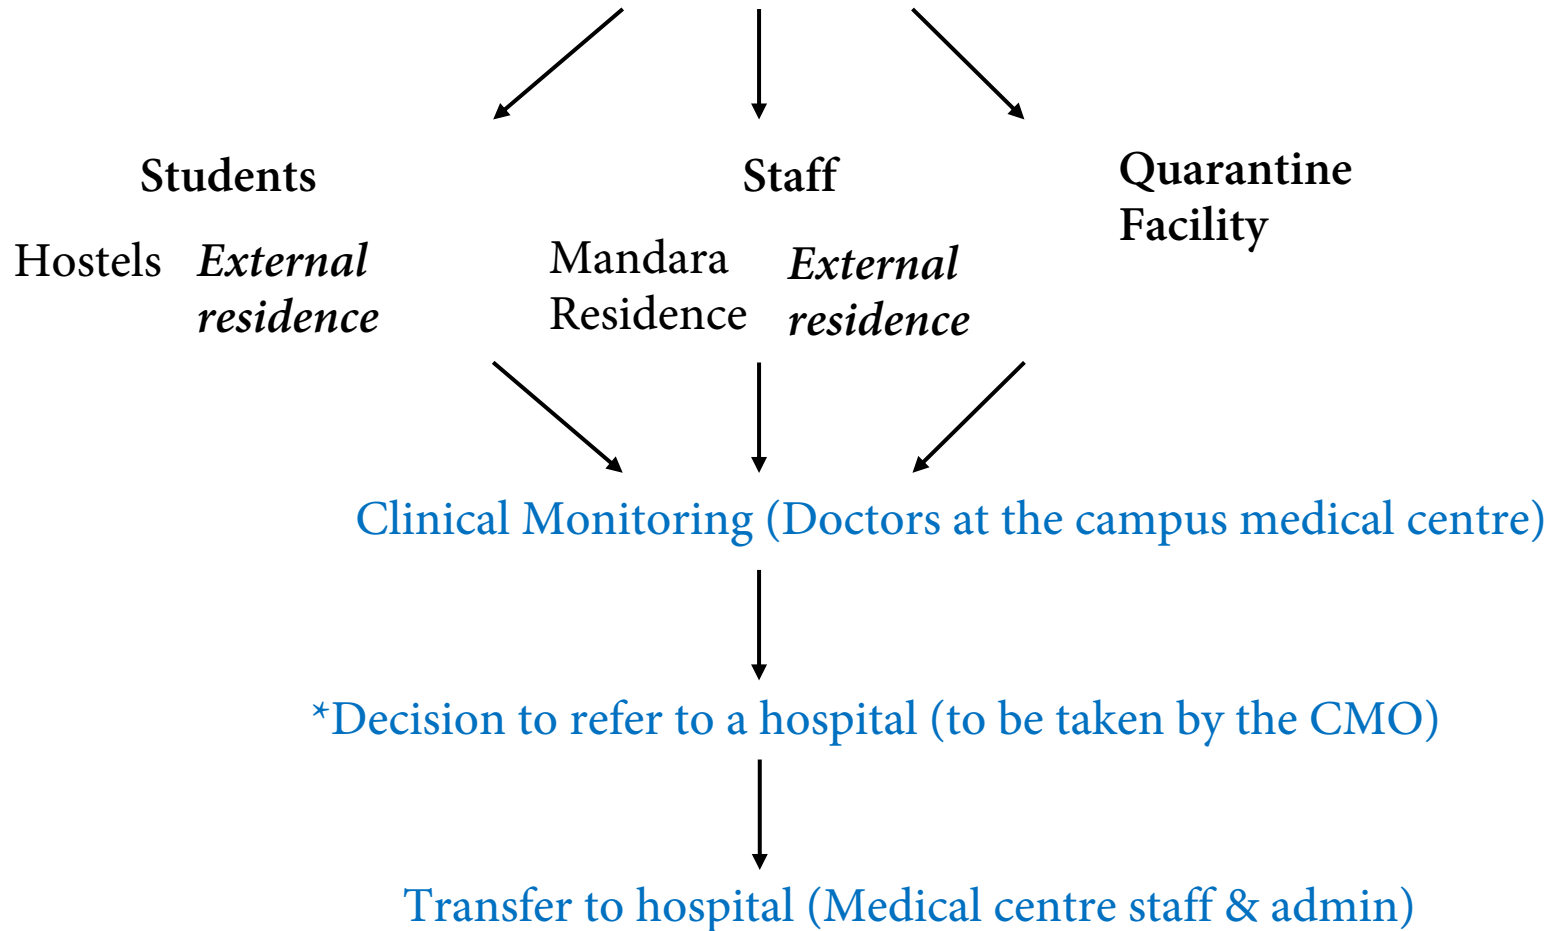

## **Who will decide ?**

Chief Medical Officer based on his professional expertise.

He may take into account one or more of the following relevant factors:

- Symptoms and their severity
- Clinical signs
- Travel history
- Contact history
- Current Government guidelines on testing and COVID-19 care

Patient with Covid-19 like symptoms on campus

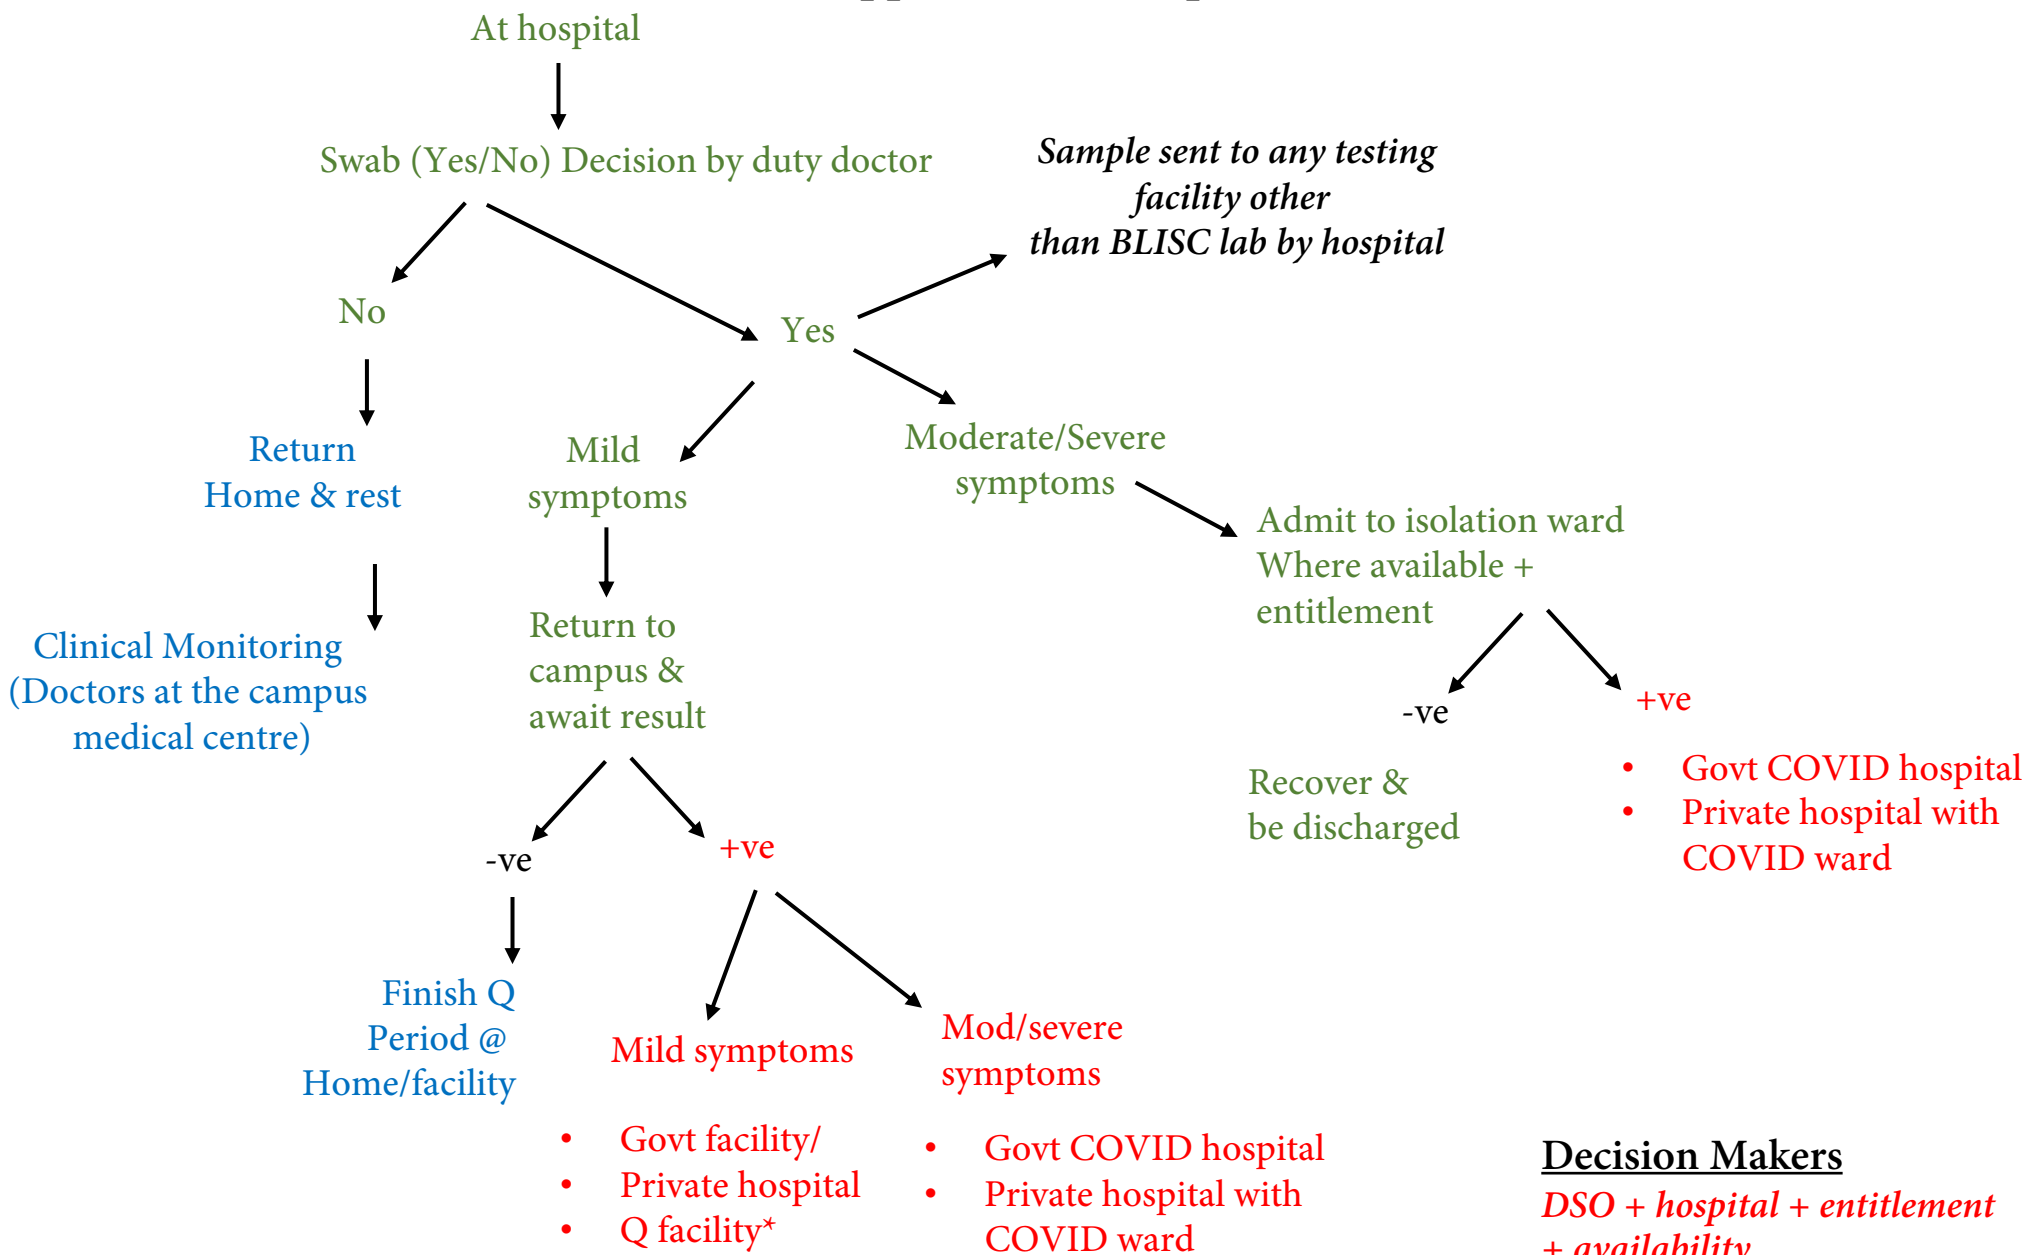

**Decision Makers**

*DSO + hospital + entitlement*

*Doctor@ hospital*

*Campus doctors*

# What happens at the hospital ?

**Decision Makers**  
*DSO + hospital + entitlement + availability*  
*Doctor@ hospital*  
*Campus doctors*

\* Guided by current Govt guidelines
