Positive Case

You have tested positive. Please isolate

If you had any **symptoms** : isolate until 3 days completed with NO symptoms

If completely **asymptomatic** since testing positive: isolate for 5 days

Get a Rapid antigen test done and send Picture of the result to your unit head/PI

If Antigen test is **negative** Return to work

If **positive** continue to isolate and repeat antigen test 3 days later

PI or unit head to inform crt@ncbs.res.in that case is closed with negative RAT result

If Antigen test is **Negative** Return to work

If **positive** continue to isolate and repeat antigen test 3 days later

PI or unit head to inform crt@ncbs.res.in that case is closed with negative RAT result
