$\frac{\textbf{Name of the Work: Relocating the existing Parking Cafeteria to the eastern side of campus, adjacent}{\textbf{to Nalla}}$

Schedule of Quantities

S1. No.	Description	Units	Qty	Rate	Amount
1	Clearing Jungle including uprooting of rank	Sqm	160.00		
	vegetation, grass, brush wood, trees and				
	saplings of girth up to 30cm measured at a				
	height of 1m above ground level and removal of				
	rubbish up to a distance of 50m outside the				
	periphery of the area cleared. (NOTE: If				
	however, only grass is met with, the area will				
	be measured and paid for, under as a separate				
	item.)				
2	Felling trees of the following girth (measured at	No's	1.00		
	a height of 1m above ground level) including				
	cutting of trunks and branches removing the				
	roots, filling the pit and depression, stacking of				
	the serviceable materials and disposal of				
	unserviceable material etc., as directed				
	for:Beyond 30cm up to including 60cm girth.				
		0	160.00		
3	Providing and injecting chemical emulsion for	Sqm	160.00		
	pre-constructional Anti-termite treatment and				
	creating a chemical barrier on top surface of				
	plinth filling, junction of inside wall and floor,				
	on top of Damp Proof Course (DPC) or on				
	masonry at the level of plinth filling as per IS				
	6313(part-II)-1981 using chemicals like				
	Chloropyripos emulsifiable (IS: 8944-1978)				
	20EC mixed with water in 1:19 ratio (i.e., 1				
	litre of Chemical to 19 litres of water). The				
	emulsion is spread at 5 lit/sqm on top surface				
	of plinth filling, top of Damp proof course and				
	at 1 lit/linear meter along the junction of wall				
	and floor, all as per specifications and				
	directions. (Plinth area of the building at				
	Ground floor only shall be measured)				

S1. No.	Description	Units	Qty	Rate	Amount
4	Earthwork in excavation by mechanical means	Cum	26.00		
	(hydraulic excavator) / manual means for				
	FOUNDATION TRENCHES in ALL KINDS OF				
	SOILS including dressing of sides, ramming of				
	bottom, disposing the surplus excavated				
	materials within a distance of 50m and lift				
	1.50m complete as per specifications.				
	(Disposed soil to be levelled by breaking clods if				
	any and neatly dressed).				
5	Filling available excavated approved earth	Cum	12.50		
	(excluding rock) in trenches, sides of	Cum	12.00		
	foundations, plinth, etc; in layers not exceeding				
	15cm depth breaking clods, consolidating each				
	deposited layer by ramming, watering and				
	dressing, etc; complete for lead up to 50m and				
	all lifts etc., complete as per specifications.				
6	Earthwork in SURFACE EXCAVATION in ALL	Sqm	160.00		
	KINDS OF SOILS not exceeding 30cm in depth				
	but exceeding 1.50m in width as well as 10sqm				
	on plan wherever necessary and disposal of				
	excavated earth, lead up to 50m and lift up to				
	1.50m (disposed soil to be levelled and neatly				
	dressed) complete as per specifications.				
7	SURFACE DRESSING of the ground IN ALL	Sqm	160.00		
	KINDS OF SOILS including removing				
	vegetation and inequalities not exceeding 15cm				
	depth and disposal of rubbish lead up to 50m				
	and lift up to 1.50m (disposed earth to be				
	levelled by breaking clods if any and neatly				
	dressed) etc; complete all as per specifications.				

S1. No.	Description	Units	Qty	Rate	Amount
8	Providing and constructing SIZE STONE MASONRY using hard granite stones obtained from approved quarry with edges of stones hammer dressed in courses not less than 20cm with bond stones at 2m apart in each course including curing, raking out joints and simultaneously flush pointing with the same mortar etc; complete all as per specifications IN FOUNDATION AND PLINTH. (The mix ratio specified is for cement: coarse river sand) In cement mortar 1:6		10.00		
9	Providing and constructing BRICK MASONRY in cement mortar as per mixes stipulated below using approved well burnt bricks of class designation (Classification as per IS 1077-1986) as specified below including raking out joints 10mm deep, scaffolding, curing, etc; complete as per specifications IN SUPERSTRUCTURE UPTO FLOOR FIVE LEVEL. (The mix ratio specified is for cement: coarse river sand)Using MACHINE PRESSED WIRE CUT BRICKS of class designation NOT LESS THEN 10 (Minimum average compressive strength not less than 10N/sqmm) in cement mortar 1:4	Cum	7.00		
10	Providing and laying cement concrete PCC 1:4:8 using 40mm nominal size graded hard granite stone aggregate obtained from approved quarry including compaction, finishing top surface to level, curing, cost of formwork, etc; complete as per specifications. Mix ratio specified is for cement: coarse river sand: graded stone aggregate. IN FOUNDATION AND PLINTH/SUB-BASE TO FLOORS.		3.50		

	Providing and laying cement concrete PCC	Cum	4.50	
	1:2:4 using 20mm nominal size graded hard			
	granite stone aggregate obtained from approved			
	quarry including compaction, finishing top			
	surface to level, curing, cost of formwork, etc;			
	complete all as per specifications. Mix ratio			
	specified is for cement : coarse river sand :			
	•			
	graded stone aggregate. IN FOUNDATION AND			
	PLINTH/SUB-BASE TO FLOORS.			
12	Supplying, fabricating, assembling, hoisting /			
	erecting and fixing in position at all heights			
	and with all leads, structural steel works of			
	welded built-up sections, all as per structural			
	drawings and as per detailed specifications (for			
	materials and workmanship) in the situations			
	described hereinafter including a) cutting of			
	components to required lengths / widths and			
	shapes/profiles, b) smooth machining of edges			
	/ faces, c) welding (electric arc welding) at			
	joints of built-up sections/ single sections for			
	required weld lengths and sizes and d) painting			
	all over with two coats of Synthetic enamel			
	paint of approved quality, make and			
	colour/shade over one coat of red oxide zinc			
	chromate primer with surfaces duly prepared			
	to receive painting etc., complete all as directed			
	by the engineer-in-charge.			
	NOTE : The contractor shall submit fabrication			
	shop drawings for work involved based on			
	construction drawings (that may be issued			
	during construction period) for approval by			
	engineer-in-charge. The fabrication work shall			
	start only after approval to the fabrication			
	drawings. Any change required in the fabrication drawings shall be carried out at no			
	extra cost over the quoted rates. Fabrication			
	shall be in a perfectly workmanship like			
	manner and as provided in Section V and VI of			
	IS 800 and IS 7215. Welding shall be carried			
	out by qualified welders. Electrodes for			
	welding, the procedure, selection, test and			
	inspection shall conform to provisions in IS			
	816, IS 818, IS 822, and IS 833.			
	Erection/hoisting shall commence only after			
	passing of fabricated parts by the engineer-in-			
	charge.			

S1. No.	Description	Units	Qty	Rate	Amount
12.1	Structural steel works of built up and framed	Mt	0.30		
	Stanchions / Columns / Trusses / Girders /				
	Portals etc., in welded built up sections				
	fabricated with RS Joists (ISMB/ ISWB/ ISHB)				
10.0					1
12.2	Structural steel works and welded built up	Mt	0.05		
	sections with MS Plates of any thickness				
12.3	Hot finished seamless type tubes	Mt	3.20		T
13	Supplying and fixing/tieying in position	Rmt	825.00		
	25/32mm dia bamboo horizontals/incline				
	supports for bamboo huts including necessary				
	labours, bamboo pins/nails, wires, etc.,				
	complete as per drawings specification etc.				
	complete as per EIC				
14	Providing and laying cement concrete ROSA	Sqm	160.00		
	COMETA paver blocks flooring using 120mm				
	thick blocks of gery colours manufactured by				
	M/s. BASANT BETONS, close jointed over bed				
	of 75mm thick river sand to a tight pattern,				
	laid to proper line and level including bedding				
	down the completed surface with a plate				
	vibrator or by firmly topping level with mallet				
	and a large flat piece of timber, finishing by				
	brushing clean dry sand over the surface to fill				
	all the joints thoroughly including fixing the				
	edge restraint laying blocks etc., complete all				
	as per manufacturers specifications and				
	directions of engineer-in-charge. (Rate to				
	include cost of paver blocks, sand and labour				
	etc.). The arrangement of pattern of blocks				
	shall be as per architectural drawings.				

S1. No.	Description	Units	Qty	Rate	Amount
15	Providing and laying 16 to 18mm thick +1mm	Sqm	19.00		
	tolerance mirror polished granite stone slabs				
	flooring of approved colour and shade using				
	mirror polished granite stone slabs of size				
	1800mm x 1200mm / 1800mm x 2400mm and				
	smaller sizes as per the site conditions (cut				
	from the bigger sizes of mirror polished water				
	jet cut stone slab stone slab of approximate				
	size 6.5ft x 10.5ft) approved colour / texture				
	and pattern of RANDOM GRANITE SLABS,				
	water cut quality, machine cut to required size,				
	laid over a bed of 20mm thick cement mortar				
	1:6 and cement slurry at the rate of 4.4kg/sqm				
	for bedding and jointing including grouting the				
	joints with pigments to match the shade of the				
	slabs, finishing to required level, curing,				
	cleaning, mopping, etc; complete all as per				
	specifications at all heights in all floors. In				
	Staircase risers / treads /Counter tops/				
	Copings with Lacca red / Greenpal / Tropical				
	brown / Jet black colour.				
1.0		D 4	115.00		T
16	Providing Bevelled edge Chamfering and		115.00		
	polishing at edges, corners, junctions etc., of				
	granite with proper templetes or battens to the				
	required size etc., complete all as per				
	specification.				
17	Providing and fixing two line dressed	No	2.00		1
	130X130mm X up to 1000mm height granite				
	stone post embedded in concrete etc., complete				
	as per specification, drawing and as directed by				
	EIC.(Concrete will be measured in separate				
	item).				

S1. No.	Description	Units	Qty	Rate	Amount
18	Providing and laying 20 to 25mm thick	Sqm	6.00		
	polished cuddapah stone slab for shelves				
	anchored into the wall including cutting to				
	required size, filling the gaps with cement				
	mortar 1:4 with matching pigment, laid to				
	required level, curing etc., complete all as per				
	specifications and directions of engineer-in-				
	charge in all floors at all heights.Machine				
	polished on one side and other side finished to				
	even surface and with machine cut edges				
19	Supplying and fixing /laying in position water	Sqm	145.00		
	tight dry grass roof over a layer of bamboo mat	1			
	including cost of grass, labour, polishing of				
	bamboo mat, etc. complete all as per drawing				
	and as directed by EIC . (Minimum thickness				
	of grass roof shall be of 200mm thick)				
200	Description described and the second section for	0	0.50		
20	Providing dry granite rubble stone pitching for	Cum	9.50		
	embankments etc; including supply of stone				
	spalls for filling and wedging, hand packing in				
	close joints with appropriate size of stones and				
	filling the interstices with smaller chips and				
	finish to line and slope, etc; complete all as per				
	specifications.				
21	Providing and fixing 50mm thick first grade	Sam	20.00		
2,1	(Class2) seasoned teak wood wrought & put up		20.00		
	planks duly seasoned and treated, free of				
	decay, pockets of streaks on exposed edges,				
	splits, cracks, dead or cluster knots,				
	discolouration etc. The planks shall be of				
	uniform colour and shall be fixed to the floor				
	frame, ensuring adequate bearing of the planks				
	on the frame, including smooth planeing all				
	exposed surfaces, surfaces smooth to receive				
	polishing on all surface with two coats,				
	attending the work in a workman like manner				
	to the satisfaction of the Engineer - In - Charge				
	of work etc complete.				

S1. No.	Description	Units	Qty	Rate	Amount
No.	Note:- 1.Sample wood shall have to be shown to EIC and got approved. 2.Sample work on an area of about 1MX1M shall have to be first done & got approved prior to proceeding with the work. 3.The work shall be executed in a professional workman like manner. 4.Work shall be executed by skilled workers/specilized agency. Using planks of approved size with tong & groove joint				
22	Providing and fixing of Stain less Steel Nirali sink of Glister super series of Jumbo model of over all size 685mmX535mm and bowl size of 610X460X254mm with glossy finish, complete all as per specification and as directed by EIC., etc complete.		2.00		
23	Providing and Fixing Indian make wash hand basin (with CP bottle trap) comprising of fallowing parts and all as per specification and as directed by EIC, etc complete. A) wash basin of Hind ware make of approved model no - Basic rate Rs.2270/- B) Angle cock of model no CON-059KN of jaquar make C) Waste coupling D) Bottle trap of jaquar make of model no ALD-769 L300X190 E) GI pipe of medium quality - 32mm N.B from wash basin to floor trap F) C.I brackets for fixing wash basins / sinks G) G.I Pipe Bend of 40mm dia. H) GI pipe of medium quality - 40mm N.B		2.00		
24	Providing and fixing UPVC floor trap with 75mm dia outlet 'Supreme' or other equivalent approved make, including connection with PVC soil / waste pipe, necessary 150mm thick CC 1:2:4 for embedding the trap including providing and fixing top rail and strainer on top of the trap etc., complete all as specified and directed.		4.00		

shape for wakitchen platfor location in more rubbing and complete, per c	Fixing of Pillar cock of size 1/2" closing system of Jaquar make o PRS-031, with necessary pes, etc complete all as per Fixing of Bib cock (Angular 1/2" BSP with wall flange of of model no FLR-5037N, with nection pipes, etc complete all as ons	No No	2.00

	300X300mm, 450mm deep comprising of				
	230mm thick brick walls using first class country brick walls in CM 1:5 over a bed of				
	150mm thick PCC 1:4:8 (using 40mm size				
	metal) with 75mm projections all-round beyond				
	the masonry face, plastered with CM 1:3,				
	12mm thick mixed with waterproofing				
	compound as per manufacturer's specifications				
	on internal, external, top exposed surface and				
	internal, top surfaces finished smooth with a				
	floating coat of neat cement, providing and				
	fixing painted CI frame and cover of size				
	300X300 weighing not less than 7kg with				
	locking arrangement fixing the frame in CC				
	1:2:4 including form work, curing, etc,				
	complete all as specified and directed. NOTE:				
	CC 1:2:4 in the above Item is by using 20mm				
	graded granite aggregate obtained from				
	approved quarry.				<u> </u>

Description	Units	Qty	Rate	Amount
Construction of grease trap chamber of	No	2.00		
internal dimensions 450X450X760mm in				
230mm thick brick masonry using first class				
country brick walls in CM 1:3 over a bed of				
150mm thick 1:2:4 CC, plastering with CM 1:2,				
12mm thick on internal, external, top surfaces				
and inside and exposed top surfaces finished				
smooth with a floating coat of neat cement,				
providing and fixing light single seal CI frame				
and cover of size 450X450mm weighing not				
less than 25kg conforming to IS 1726, CC 1:2:4				
for fixing the CI frame and cover, painting with				
3-coats of anticorrosive black bitumastic paint,				
providing 1 no SW Tee of size 100mm on the				
outlet, encasing sewers connection to chamber				
in CC 1:2:4 etc., complete all as directed and				
			ı	1
	Nos	2.00		
Providing and fixing CI frame and cover of size				
300X300mm weighing not less than 7kg fixing				
the frame in PCC 1:2:4 using 20mm stone				
metal including painting the frame and cover				
with 3-coats of anticorrosive black bitumastic				
painting etc. Complete all as specified and				
	internal dimensions 450X450X760mm in 230mm thick brick masonry using first class country brick walls in CM 1:3 over a bed of 150mm thick 1:2:4 CC, plastering with CM 1:2, 12mm thick on internal, external, top surfaces and inside and exposed top surfaces finished smooth with a floating coat of neat cement, providing and fixing light single seal CI frame and cover of size 450X450mm weighing not less than 25kg conforming to IS 1726, CC 1:2:4 for fixing the CI frame and cover, painting with 3-coats of anticorrosive black bitumastic paint, providing 1 no SW Tee of size 100mm on the outlet, encasing sewers connection to chamber in CC 1:2:4 etc., complete all as directed and specified. (Ref. Fig. No. CED:PH8.5 of PH Engineering Specification) NOTE: CC 1:2:4 in the above Item is by using 20mm graded granite aggregate obtained from approved quarry. Providing and Fixing in position best quality salt stoneware gully trap of size 100mm square with 100mm outlet; conforming to IS:651 embedded in plain cement concrete 1:4:8 (20mm Metal), providing and fixing 100mm square CI grating on top of the trap, all the above encased in a chamber of 300X300mm built with 115mm thick brick masonry using first class country bricks in CM 1:3, over a bed of CC 1:4:8 using 40mm size metal 100mm thick, plastering with CM 1:3, 13mm thick inside, outside, exposed top surfaces and Internal and top exposed surfaces finished smooth with a floating coat of neat cement, Providing and fixing CI frame and cover of size 300X300mm weighing not less than 7kg fixing the frame in PCC 1:2:4 using 20mm stone	internal dimensions 450X450X760mm in 230mm thick brick masonry using first class country brick walls in CM 1:3 over a bed of 150mm thick 1:2:4 CC, plastering with CM 1:2, 12mm thick on internal, external, top surfaces and inside and exposed top surfaces finished smooth with a floating coat of neat cement, providing and fixing light single seal CI frame and cover of size 450X450mm weighing not less than 25kg conforming to IS 1726, CC 1:2:4 for fixing the CI frame and cover, painting with 3-coats of anticorrosive black bitumastic paint, providing 1 no SW Tee of size 100mm on the outlet, encasing sewers connection to chamber in CC 1:2:4 etc., complete all as directed and specified. (Ref. Fig. No. CED:PH8.5 of PH Engineering Specification) NOTE: CC 1:2:4 in the above Item is by using 20mm graded granite aggregate obtained from approved quarry. Providing and Fixing in position best quality salt stoneware gully trap of size 100mm square with 100mm outlet; conforming to IS:651 embedded in plain cement concrete 1:4:8 (20mm Metal), providing and fixing 100mm square CI grating on top of the trap, all the above encased in a chamber of 300X300mm built with 115mm thick brick masonry using first class country bricks in CM 1:3, over a bed of CC 1:4:8 using 40mm size metal 100mm thick, plastering with CM 1:3, 13mm thick inside, outside, exposed top surfaces and Internal and top exposed surfaces finished smooth with a floating coat of neat cement, Providing and fixing CI frame and cover of size 300X300mm weighing not less than 7kg fixing the frame in PCC 1:2:4 using 20mm stone	internal dimensions 450X450X760mm in 230mm thick brick masonry using first class country brick walls in CM 1:3 over a bed of 150mm thick 1:2:4 CC, plastering with CM 1:2, 12mm thick on internal, external, top surfaces and inside and exposed top surfaces finished smooth with a floating coat of neat cement, providing and fixing light single seal CI frame and cover of size 450X450mm weighing not less than 25kg conforming to IS 1726, CC 1:2:4 for fixing the CI frame and cover, painting with 3-coats of anticorrosive black bitumastic paint, providing 1 no SW Tee of size 100mm on the outlet, encasing sewers connection to chamber in CC 1:2:4 etc., complete all as directed and specified. (Ref. Fig. No. CED:PH8.5 of PH Engineering Specification) NOTE: CC 1:2:4 in the above Item is by using 20mm graded granite aggregate obtained from approved quarry. Providing and Fixing in position best quality salt stoneware gully trap of size 100mm square with 100mm outlet; conforming to IS:651 embedded in plain cement concrete 1:4:8 (20mm Metal), providing and fixing 100mm square CI grating on top of the trap, all the above encased in a chamber of 300X300mm built with 115mm thick brick masonry using first class country bricks in CM 1:3, over a bed of CC 1:4:8 using 40mm size metal 100mm thick, plastering with CM 1:3, 13mm thick inside, outside, exposed top surfaces and Internal and top exposed surfaces finished smooth with a floating coat of neat cement, Providing and fixing CI frame and cover of size 300X300mm weighing not less than 7kg fixing the frame in PCC 1:2:4 using 20mm stone	internal dimensions 450X450X760mm in 230mm thick brick masonry using first class country brick walls in CM 1:3 over a bed of 150mm thick 1:2:4 CC, plastering with CM 1:2, 12mm thick on internal, external, top surfaces and inside and exposed top surfaces finished smooth with a floating coat of neat cement, providing and fixing light single seal CI frame and cover of size 450X450mm weighing not less than 25kg conforming to IS 1726, CC 1:2:4 for fixing the CI frame and cover, painting with 3-coats of anticorrosive black bitumastic paint, providing 1 no SW Tee of size 100mm on the outlet, encasing sewers connection to chamber in CC 1:2:4 etc., complete all as directed and specified. (Ref. Fig. No. CED:PH8.5 of PH Engineering Specification) NOTE: CC 1:2:4 in the above Item is by using 20mm graded granite aggregate obtained from approved quarry. Providing and Fixing in position best quality salt stoneware gully trap of size 100mm square with 100mm outlet; conforming to IS:651 embedded in plain cement concrete 1:4:8 (20mm Metal), providing and fixing 100mm square CI grating on top of the trap, all the above encased in a chamber of 300X300mm built with 115mm thick brick masonry using first class country bricks in CM 1:3, over a bed of CC 1:4:8 using 40mm size metal 100mm thick, plastering with CM 1:3, 13mm thick inside, outside, exposed top surfaces and Internal and top exposed surfaces finished smooth with a floating coat of neat cement, Providing and fixing CI frame and cover of size 300X300mm weighing not less than 7kg fixing the frame in PCC 1:2:4 using 20mm stone

S1. No.	Description	Units	Qty	Rate	Amount
36	Supply and Fixing of FRP/GRP Gutter sheet to	Rmt	11.00		
	a requiired lenth of size 1mtr width and 0.5m				
	depth on either side for the Dry grass roof				
	fixed to the sheet with self drilling and self				
	tapping screws all as per manufacturers				
	specifications and drawings etc., complete.				
37	Cutting existing buitmen road, up to 0.60m wide and 0.60m depth and refilling the same with 75mm thick PCC 1:1:2 as a top finish and 100mm thick PCC1:3:6 as a base course etc complete all as per specification and as directed by EIC etc., complete	Rmt	15.00		
38	Providing and laying light duty Non-pressure NP-2 Class RCC Hume pipes with collars jointed with stiff mixture of CM 1:2 (cement: fine sand) including joints, etc; complete 225mm dia.	Rmt	15.00		
39	Providing and fixing rigid PVC SWR (soil, waste and rain water) drainage / rain water pipe conforming to Type-A IS 13592-1992, including accessories like bends and fixing with pipe clips, adhesive at joints all as per manufacturer's specifications to required length etc., complete all as per specifications and directions of engineer-in-charge.110mm dia OD pipes with minimum wall thickness of 2.20mm		10.00
